- **APR-2**
- **Karl**

Flight Date:

Sunday, September 12, 2010

Sortie Number:

18

This was the second day over the pouch to be Karl.

APR-2 operated with no problems.

Inside the butterfly pattern APR-2 observed little stratiform precipitation and a more widespread anvil.

Convection was observed in the transit legs to and from Ft. Lauderdale. Not associated directly with the pouch.
